

SYSTEM COMBINATIONS

HYDROBOX COMBINATION

(HMS system)

Hydrobox combination offers space heating and cooling with the option to add sanitary hot water to the system.

Each Hydrobox combination includes a set of an outdoor unit and an indoor unit (HMS) where the indoor includes all the necessary accessories to make a complete installation (remote controller, circulation pump, 3 way diverting valve for hot water, immersion heater for back-up operation).

The indoor unit is a compact unit with a gas boiler design (H850x W515x D350) making it applicable in any space due to its reduce size.

- **Heating and cooling only option**

Mitsubishi Heavy industries air to water heat pumps captures fresh air to heat or cool the property and ensure maximum comfort throughout the year. Heating and cooling only option is available and no additional accessories are required for such installation.

- **Hot water option**

Hot water system option can be available by additionally connecting a hot water tank. The indoor unit already includes a 3 way diverting valve for hot water mode and an immersion heater.

- **Available from 6 and 8 kW (R32)
to 16kW (R410A)**

FLEXIBLE COMBINATION

(HSB system)

FLEXIBLE COMBINATION offers space heating and cooling with the option to add sanitary hot water to the system.

FLEXIBLE COMBINATION consists of an outdoor unit and HSB system (Split box) and by combining the separate accessories, FLEXIBLE COMBINATION makes installation even more complete for your climate needs.

- **Heating and cooling only option**

Mitsubishi Heavy industries air to water heat pumps captures fresh air to heat or cool the property and ensure maximum comfort throughout the year. Heating and cooling only option is available by additionally connecting any FLEXIBLE COMBINATION with a charging pump and an immersion heater.

- **Hot water option**
