

Technical characteristics

Parameter	Data:
Rated Power, [W]	3000W
Rated Voltage, [V]	230V / 50Hz
Degree of protection	IP65
Thermostat range, [°C]	5 - 70
Thermal cut out , [°C]	90
Signal lamp	Yes
Immersed length, [mm]	390
Power cable with plug 1m	Yes
Material of heating branch	Copper
Connection thread	G 1 ½
Made in	Italy/Thermowatt

It uses for storage water tanks from 160 to 500 liters
Flange required for mounting

1. Electric heating element 3 kW with integrated thermostat, Plug & Play

2. Flange for mounting heating element in the inspection hole, enameled, DN 180 - socket with thread 1 1/2",, for IHWTs 160-500 with rubber gasket

The temperature settings are protected from unauthorized modification under cover.
